	<p>New - Lyman Borecam! In stock.... http://bulletin accurateshooter.com/2016/01/lyman-borecam-review-by-vince-bottomley/ •Allows for quick and easy inspection of the entire inside of your barrel •Miniature digital camera technology and bright lighting combine to provide crisp clear images •Images can be captured from the display and saved to a memory card</p> <p>Lyman's Borescope provides active shooters with the means to carefully inspect the bores of their firearms for wear, throat erosion, tool marks, and other rifling or chamber damage, as well as for checking for fouling. The scope will fit <u>20 caliber and larger barrels</u> and works with miniature camera technology. The display will show a clear image of the inside of the barrel and also allows you to take a photo of the bore. The image will be stored on a standard SD card and can later be viewed on a computer or laptop.</p>

Category	Prices subject to change Description - May 2016		Price
	<p>Reloaders rejoice - quality control! <u>CONCENTRICITY GAUGE</u> by Sinclair is used to measure run-out by rotating the case or loaded round on two sets of bearings that are captured in anodized aluminum blocks. The bearing blocks are adjustable longitudinally to allow for different case lengths or varying lengths of loaded rounds. The handloader can measure sized cases on the neck, and measure loaded rounds on the neck or out on the bullet. The bearing blocks ride in a milled slot in the gauge base plate. This milled slot keeps the blocks in alignment with each other.</p> <p>This arrangement supports the cartridge, enabling the user to spin the cartridge smoothly. Large thumb levers on the bearing blocks make adjustments quick and easy. The anodized base plate is extremely stable allowing the user to take accurate readings. The indicator tower is designed to permit vertical and side-to-side adjustment of the dial indicator. The mounting block for the dial indicator is designed to accommodate dial indicators with standard 0.375" mounts. This is a quality measuring tool for the serious precision reloader and will accept cases up to 50 BMG.</p>		<p>\$145 with dial indicator - \$125 without dial indicator</p>
	<p><u>Bullet Comparator</u> by Sinclair: Holes in the comparator are cut with throating reamers to accurately duplicate the actual throat of a rifle. The comparator is used with calipers, and allows the reloader to accurately measure the length from the major diameter of the bullet to the case head. It also enables you to make accurate seating depth changes to your bullet seater. The Comparator does not attach to your calipers, so your calipers are free for other measurements. Machined from stainless steel. Model #2 (09-700) has holes throated for .172, .204, .224, .270, .308, and .338 caliber.</p>		<p>\$26</p>
	<p>ACRAGLAS KIT - 2 fl. oz. (59 ml) Resin, 7/8 fl. oz. (26 ml) Hardener, 7/8 fl. oz. (26 ml) Release Agent, Floc, 2 Mixing Cups, Mixing Stick, Brown Dye, Black Dye enough to bed 2 Rifles. Complete Instructions.</p>		<p>\$36</p>
	<p>ACRAGLAS GEL KIT - 2 fl. oz. (59 ml) Resin, 2 fl. oz. (59 ml) Hardener, 7/8 fl. oz. (26 ml) Release Agent, Measuring Spoon, re-useable Poly Mixing Dish, Mixing Stick, Brown Dye, Black Dye and Complete Instructions.</p>		<p>\$45</p>

Category	Prices subject to change Description - May 2016		Price
	Timney Trigger - Remington 788 - The Remington 788 has long been considered the best shooting rifle for the money, the only thing holding it back has been its trigger. Even though the 788 has been discontinued we still sell hundreds of these triggers. Adjustable from 1.5 to 3.5 lbs, the trigger comes with safety and bolt stop attached.		\$ 175.00
	Timney Trigger - Remington #7 - Fully adjustable. Uses safety and bolt-stop from your present trigger. Brings trigger control you never thought possible to your Remington 7. Adjustable from 1 1/2 to 4 pounds. Our trigger will not work if you are trying to replace the X-mark Pro Trigger on the Model Rem 7		\$ 185.00
	Timney Trigger - Howa 1500 - Mfg. No. 611 - Single-stage, replacement trigger for popular Weatherby and Howa rifles delivers clean, crisp trigger pulls that help make accurate shots possible. Precision machined and hardened internal parts for maximum reliability. Adjustable for weight of pull (1½ - 4 lb.) and creep. Lock nuts hold settings. Includes safety. Fits Weatherby Vanguard, Howa and S&W 1500. Available with nickel plating to resist corrosion and help clean.		\$165 nickel add \$19
	Timney Trigger - Rem 700 Tactical - Mfg No. 501T - Adjustable, 3-lever design gives a weight of pull from 2 - 8 oz. Post-style finger lever adjusts for length and cant. Lets benchrest, long range varmint and match shooters achieve a precise fit to their finger. All steel construction, with polished and heat-treated internal parts, provides durability and long life. No safety.		\$ 210.00
	Timney Trigger - REMINGTON 788 TRIGGER W/SAFETY - Mfg. No. 788 - Single-stage replacement trigger delivers alight, crisp, clean trigger pull that helps you enjoy the full accuracy potential of your Remington 788. Adjustable for weight of pull (1½" to 3½" lb.) and over travel. Includes safety and bolt stop. Aluminum housing, heat-treated steel internals, matte black finish. Polished sear/trigger surfaces. Smooth .150" (3.9mm) wide shoe. Fits right-hand Remington 788 rifles only. Includes installation instructions.		\$ 175.00
	Timney Trigger - RUGER® M77® ADJUSTABLE TRIGGER KIT - Mfg. No. 601 - Adjustable, Featherweight-style, single-stage, replacement triggers for popular bolt action rifles deliver clean, crisp trigger pulls that help improve accuracy. Precision machined and hardened internal parts for maximum reliability. Adjustable for weight of pull (1-1/2-4 lb.), creep and over travel. Lock nuts hold settings. . Ruger 77 fits models with tang safety, connects to Ruger safety button. Right hand only, will not fit current production Mk II.		\$ 155.00
	Timney Trigger - RUGER® M77® MK II ADJUSTABLE TRIGGER KIT - Mfg. No. 1100 - All stainless steel, drop-in kit does away with the non-adjustable, factory trigger and its heavy pull, for improved accuracy and more enjoyable shooting. Conveniently-placed set screws are adjustable for let-off, weight of pull (1.5 to 3lb.) and over travel. Parts are fully-finished; heat treated for durability and ready-to-install; requires no alteration to the factory parts. Kit includes trigger, sear, reduced weight spring and instructions. Use factory spring to set heavier weight of pull.		\$ 145.00

	Timney Trigger - Winchester Model 70 Blue - Mfg. No. 401 Adjustable, Featherweight-style, single-stage, replacement triggers for popular bolt action rifles deliver clean, crisp trigger pulls that help improve accuracy. Precision machined and hardened internal parts for maximum reliability. Adjustable for weight of pull (1-1/2-4 lb.), creep and over travel. Lock nuts hold settings. Winchester 70 fits Pre-and Post-64 Model 70; Model 54 requires gunsmith fitting. Uses factory safety.		\$ 175.00
	Timney Trigger - Winchester Model 70 MOA Blue - Mfg. No. 402 (nickel 402-16np) This self-contained, 100% drop-in unit is ready to install in your Winchester Model 70 rifle with the MOA trigger. The trigger features an exceptionally smooth, crisp, single-stage trigger pull and requires no gunsmithing or fitting. Just like all Timney bolt action rifle triggers the new Winchester MOA replacement is fully adjustable for Creep, follow through and pull weight. The lightweight, 6061 T6 aluminum alloy housing is anodized for superior durability. The sear is Wire EDM machined billet steel and combines hardness to resist wear with superior impact resistance and is Teflon-nickel plated for greatly enhanced lubricity. Other components are EDM cut from billet steel, then heat treated to R/C 56-60 for a long service life.		\$175 nickel add \$19
	Timney Trigger - Ruger 77 (w/tang safety) Trigger - Mfr. Part: 601 Ruger 77 fits models with tang safety, connects to Ruger safety button. Right hand only, will not fit current production Mk II. Adjustable, Featherweight-style, single-stage, replacement triggers for popular bolt action rifles deliver clean, crisp trigger pulls that help improve accuracy. Precision machined and hardened internal parts for maximum reliability. Adjustable for weight of pull (1-1/2-4 lb.), creep and over travel. Lock nuts hold settings.		\$ 155.00
	Timney Trigger - Sako Deluxe fits "A" Series L461, L579 & L61. - MFG NO. 621 - Adjustable, Featherweight-style, single-stage, replacement triggers for popular bolt action rifles deliver clean, crisp trigger pulls that help improve accuracy. Precision machined and hardened internal parts for maximum reliability. Adjustable for weight of pull (1-1/2-4 lb.), creep and over travel. Lock nuts hold settings.		\$ 175.00
	Timney Trigger - Weatherby Mark V fits American - mfg no. 651 made rifles such as Accumark, Deluxe, Synthetic, and Ultra Lightweight models. Right-hand only. Adjustable, Featherweight-style, single-stage, replacement triggers for popular bolt action rifles deliver clean, crisp trigger pulls that help improve accuracy. Precision machined and hardened internal parts for maximum reliability. Adjustable for weight of pull (1-1/2-4 lb.), creep and over travel. Lock nuts hold settings.		\$ 175.00
	Timney Trigger - Weatherby Mark V fits German - mfg no. 652 made rifles such as Accumark, Deluxe, Synthetic, and Ultra Lightweight models. Right-hand only. Adjustable, Featherweight-style, single-stage, replacement triggers for popular bolt action rifles deliver clean, crisp trigger pulls that help improve accuracy. Precision machined and hardened internal parts for maximum reliability. Adjustable for weight of pull (1-1/2-4 lb.), creep and over travel. Lock nuts hold settings.		\$ 165.00
