(4C) T4 - spacers		SOLD
(4D) T4 SURGEON 591 - REM700SA SURGEON BM		
5	<b>New Manners Tactical MCS - T5A - Rem 700 Long and Short Action - Rem BDL bottom metal, T5A with a adjustable cheek and KMW hardware. Designed as a right hand grip (if have to shoot with your weak hand it stills feels good), with a small thumb rest on the left side of the stock. The area behind the trigger looks odd but it is designed to make your hand return to the same spot each time you grip the stock. It works very well with all sizes of hands, small or large. Both versions come standard with a fixed 1" Pachmyer Decel pad. The very top end of the forend is designed with a slight flare to accept the Badger EFR night vision mount. It also has a butt hook that can be used to ride the bags or control your rifle with your non-trigger hand.+ gst</b>	EMAIL
